

AD3

VOICE ALARM DIALLER

A voice alarm dialler is essential to maintaining an unbroken cold chain. Coupled with a mobile phone, AD3 provides true peace of mind that your stock is always in tip-top condition. Easy and straightforward to install, Phasefale's AD3 is built-for-purpose and an essential link in the HACCP* cold chain.

- Up to 8 phone numbers (local, mobile, interstate, international)
- 8 separate inputs for multi-channel operation (for example, 8 different cool rooms, freezers)
- Simple to use and program including personalised voice messages
- Pre-configured for TACm, Presscon and Joule range food loss and alarm applications
- High-quality sound playback
- Uses standard public-switched-telephone (PSTN) lines
- +12V DC power (designed for optional TACm/PSB30 battery backup)
- Alarm bypass for clearing/isolating alarm

► Why Phasefale?

AD3 is proudly designed and manufactured in Australia – call now to discuss your application with people who understand your alarm and refrigeration needs!

Battery Backup

We recommend AD3 is ordered with Phasefale's TACm/PSB30 battery backup unit for failsafe operation.
