

TACmV2 Light Kit 240VAC Installation

Phasefale Part# TACm/L240V

- 1.1 The light kit comprises an LED lamp fitting and a red lens.
- 1.2 The mounting hole size is 25mm and the length of the lamp is 55mm
- 1.3 Unscrew the black plastic ring from the fitting. Assemble the fitting to the TACm.
- 1.4 The LED globe draws very little power and will glow slightly from the capacitor filter of the TACmV2.
- 1.5 It is recommended to remove the filter capacitor from the TACmV2 when fitting the LED lamp as follows;
 - a) Ensure power to TACmV2 is removed!
 - b) using side cutters, cut legs from C24 capacitor from PCB as per photo.
- 1.6 **Wiring:** Connect one terminal of LED Lamp to Neutral "N" and the other to Terminal "L"

**BEFORE
APPLYING
POWER!**

**REMOVE
C24**
