

# PANEL MOUNT

for TACMv2, JouleTemp, JouleAlarm

▶ mounting option for Phasefale controllers ◀

▶ Panel Mount is now available for all Phasefale surface mounting controls and is a great option where a flush mounting is required. A rectangular cut-out is required and the kit includes all necessary items to mount the control. A rear cover is also included to protect the controller from the inside and also encloses the wiring. Four knock-out conduit entry points are built into the cover to ensure a professional installation

▶ Features:

- Simple installation
- Same cost as standard controllers
- Internal mounting for Fan Heater board
- All mounting hardware included

▶ Applications:

- Blood Frigs
- Hospital Cool Rooms
- Switchboard mounting applications
- and many more....

▶ Order Codes:

- TACmv2/PM
- JouleA/PM
- JouleT/PM

Panel Cut-out 114 x 192

Rear Cover protects wiring and electronics

• CONTROL • MONITOR • PROTECT
